

CCBA Training

Certification of Capability in Business Analysis

OVERVIEW

CCBA training is the level 2 of business analysis training and is focused on additional business analysis topics beyond the fundamentals. This comprehensive training will prepare participants to pass the CCBA exam and help making the most of the limited time they have for studying.

The course is aligned with the Business Analysis Body of Knowledge (BABOK® Guide) version 3.0 and includes sample exam questions to make you ready. Additionally, participants will learn test-taking tips and strategies, along with other practice exercises to reinforce the material.

COURSE OBJECTIVES

- Introducing the business analysis best practices.
- Increase participants' confidence and improve their chances of passing the CCBA® certification exam.
- Streamline the massive amounts of information required to pass the test.
- Practicing exam questions to keep participants engaged and aid in their retention and learning

WHO SHOULD ATTEND

CCBA Training is for:

- Business analysts with medium level business analysis experience
- People looking to achieve the Certification of Capability in Business Analysis (CCBA)
