

PMP Training

Project Management Professional (PMP®)

OVERVIEW

Passing PMP® exam requires good preparation and resources. Our Project Management Professional (PMP)® Exam Prep course will shorten your learning curve and boost your confidence to get certified. It will prepare you for the PMP® exam and equip you with study material and resources to help you prepare with less time.

PMP® is a globally recognized certificate which indicates competency in project management and the ability to lead projects effectively.

The ability of a project manager to demonstrate best practices both on the job and through professional certification is becoming the standard to compete in today's fast-paced and highly technical workplace. In this course, you will apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI)® to successfully manage projects.

This is an advanced course in project management and participants taking this course are expected to have some professional exposure to the duties of a project manager.

COURSE OBJECTIVES

- Recognize the definition, purpose, inputs, outputs, tools and techniques, of the project management 49 processes in alignment with PMBOK® Guide – Sixth Edition
- Recognize how the project management processes and their inputs techniques can be used to manage projects
- Plan your preparation for the PMP® certification exam

WHO SHOULD ATTEND

Project managers, project coordinators, project analysts, project leaders, and anyone seeking to achieve the PMP® or CAPM® certification
